CAMPAIGN NEARS CLOSE

Well Organized Campaign to Carry Alexandria "Over the Top." Go to Your Bank Tonight and Purchase to Your Very Utmost.

The Liberty Loan Committee of this city is vigorously pushing a well organized campaign to carry Alexandria "Over the Top" despite the handicap imposed by influenza. Those engaged in the work are practical men and women and they emphasize the cost of the sinews of war and the valiant work being done by the men from here.

There is war industry in Alexandria now and this is being largely increased through huge expenditures of government funds, funds made available by the issue of Liberty Bonds. All this has created a greater volume of business which has expanded the older factories and stores and caused other industries to come into being, which gives glowing promise of a city with unlimited possibilities. The increased earnings of every worker is accompanied by greater responsibilities and all have full financial ability to over-meet the call, made by the greatest of all Democracies, for six hundred and twenty-one thousand and three hundred dollars to help pull the "Helm from Wilhelm" and to stamp out forever a power that could and did will the murder of helpless women and children, the devilish destruction of homes and places of religious inspiration. Can any Alexandrian think of the murder and rape of the Belgians and the destruction of their means of livelihood, or, to get closer home, the sinking of the Lusitania and its murdered American passengers, and not become sufficiently enthused with the wonderfully patriotic opportunity to loan to your government of your earnings your part necessary to strike death into the hearts of the Huns and to banish forever from the rulers of the governments of the earth one "who lifted the lid off Hell" and who is not fit to dwell here. Can any one, failing at this time, look into the saddened face of relatives of the loved ones who have given all—or, listen, will you have the courage to dare greet, upon their return, the brave men and women from Over there if you have failed in your work "Over Here." Word received from the trenches tell us that every American soldier has his interest centered in the success of the Fourth Issue of the Liberty Loan. This means that your kin and your friend from Alexandria want their city to sustain them at an hour when they are fighting your battles for the freedom of humanity. America has always brought its enemies in war to surrender. Alexandria, in all wars, has given its quota of men and liberally of its resources and now you are again pledged to do your part. Buy a bond today and don't wait until the list of buyers is checked and the names of the slackers are published. Confidence in our arms "Over There" and "Over Here" must be backed by an oversubscription to the Fourth Liberty Loan.

Remember, every bank in the city will be open from 7 until 9 o'clock tonight and if you have not already purchased Liberty Bonds go tonight and get them or make the necessary arrangements. If you find it will be impossible to go tonight by all means go tomorrow afternoon or night. Every citizen owes it to his country to purchase bonds to his very utmost at this critical hour. Don't be a bond slacker.

"AMERICA CAN, AND MUST."

"We shall fail in everything we have fought for and hope to gain in this war if the Fourth Liberty Loan is defeated."—Secretary McAdoo.

Secretary McAdoo last night telegraphed the following statement to all daily newspapers of the United States:

"Subscriptions reported and estimated up to noon Thursday amount to $4,000,000,000, leaving at least $2,000,000,000 to complete the Fourth Liberty Loan. Only two days are left within which to raise this vast sum. **No country on earth but America could raise so vast a sum in so short a time. America can do it and must do it. The destinies of the world and the hopes of civilization are centered upon America. We shall fail in everything we have fought for and hope to gain in this war if the Fourth Liberty Loan is defeated.**

"Let every true American citizen today examine himself under the white light of patriotism and say whether or not he has done his utmost in this emergency. **The highest obligations of duty and patriotism command every true American to go immediately to his bank or to his liberty loan committee and subscribe to the limit of his ability to the fourth liberty bonds. Don't delay. Don't wait to be urged.** Be as quick to do your part in this Fourth Liberty Loan battle as our soldiers in France are quick to obey the orders to charge the enemy.

"Buy liberty bonds on the installment plan if you cannot buy them for cash. Every patriotic bank will help you. **If every patriotic citizen will do his duty today victory for the Fourth Liberty Loan is certain.** The continued victories of our armies in Europe, the certain defeat of our enemies and the glorious triumph of the cause of liberty depend upon what the American people do in the remaining two days of the Fourth Liberty Loan campaign.

"W. G. McADOO."

THE LIBERTY BONDS

Three Important Questions to all Individual Taxpayers and Bond Buyers.

Question One. Do you realize that income which is now taxable from holdings of forty-five thousand dollars or less of four per cent. and four and one quarter per cent. liberty bonds may be totally exempted from income taxes excess profits taxes, and war profits taxes during the period of the war and for two years thereafter in case you file a subscription of thirty thousand dollars bonds of the fourth loan and retain your bonds (a proportionate exemption is accorded on smaller subscriptions to the fourth loan)?

Question Two. Do you realize that to all those paying surtaxes under the proposed revenue bill (beginning with those having taxable incomes of five thousand dollars) it would be necessary, in orde rto secure the same result in dollars, to obtain a yield from taxable securities on an investment of thirty tsousand dollars, varying from five and nine-hundredths per cent, to thirty-six and a half per cent., depending upon the rate of surtax to which a taxpayer is liable?

Question Three. Do you realize that liberty bonds are totally exempt from all normal income taxes, which under the proposed revenue act will be levied at the rate of twelve per cent., and that no State or local taxes may be levied on them as personal property, the lack of a full understanding of the tax exemption features may well mean a loss in dollars to you.

PROTESTS SEIZURE OF GERMAN PLANTS

The German government protests against the Americanizing of German-owned business concerns, ships, and other property by the alien custodian in a note to the State Department. The note state that the means used is only a way to injure the German shipping in the future.

In the note the German government states that "it cannot but be guided in the enforcement of the retaliatory orders that have been issued against American property in Germany by the manner in which the United States of America will proceed against German property.

The alien property custodian declared last night that plans for the Americanization by sale to American citizens of German-owned property, valued at $300,000,000 have been prepared and would be carried out as soon as possible.

SEVEN DEATHS FROM FLU

Doctors Claim Disease on Decrease But Death Rate is Steadily Increasing—Many Continue Seriously Ill

Seven deaths from influenza during the past twenty-four hours is the toll here.

Despite the big death rate a number of the physicians declare that the disease has about reached its height and appears to be on the decrease.

Notwithstanding this a number of additional cases were reported today in different parts of the city and many persons continue seriously ill with the disease.

One day the disease appears on the decrease and the next twenty-four hours an increase is noted. The same condition prevails in Washington and other cities. It is, therefore, hard to gauge. The epidemic may be on the wane, but at any rate the death rate is far above normal for Alexandria and has continued so since the epidemic gained a foothold here.

Thirty-two patients are now under treatment in the Westminster building suffering from influenza. Of this number fifteen are women and seventeen are men. The nurses at that institution are looking after the wants of the sufferers both day and night. In the absence of Dr. W. L. Wood, of the United States Public Health Service, Dr. H. C. Robles, is acting medical officer in charge.

Dr. Robles today declared he thought the disease to be on the decrease.

MAY COMPEL PEACE

Emperor Charles Ready to Grant Autonomy to Hungary.

Austria-Hungary is in the throes of a crisis, which will either compel Germany to accept President Wilson's decision, or, make it imperative for the dual Monarchy to act on its own accord for peace.

This situation, revealed in official dispatches received in Washington today, shows the effect that the President's note has already had on public opinion in that country.

The State Department, it was announced yesterday afternoon, has been advised that Emperor Charles, because of the political ferment his country is in, will take occasion at a meeting of the Austro-Hungarian delegates, to issue a manifesto to the people granting autonomy, and a new system of government.

In so doing, it is assumed, he will attempt to forestall the inevitable—and the inevitable, in the case of Austria, is independence for the Czecho-Slovaks and the Poles. It would be natural, however, for the Emperor, it was pointed out, to think his cause would be benefited if he could tell the President he had acted for peace by carrying out the desires of the former before he was ordered.

London, Oct. 18.—At a meeting of the Hungarian parliament a proclamation was read reclaring Hungary to be an independent state, says a despatch from Berlin.

Henceforth, the message adds there is to be only a personal union between Austria and Hungary.

BRITISH TAKE OSTEND

Lille Also Captured and General von Arnim's Retreat Assuming Proportion of a Rout.

London, Oct. 18—Tourcoing has been evacuated it was reported from the British front today.

London, Oct. 18.—The allies are driving home their victories on the west front and in the Balkans.

While the Germans are being thrown back by continuous hammer blows from the North Sea to Verdun, allied troops are overrunning Serbia and have invaded Montenegro.

Official reports show fully two-thirds of Serbia reoccupied the Montenegrin town of Ipek captured, the allies within less than sixty miles of Austrian soil at two points and the Austrian army in Albania being rapidly outflanked from the north.

The entire Belgian coast appears to have been evacuated by the Germans. The Belgians are officially reported in the outskirts of Bruges, while it is reported the enemy has fled from Zeebrugge, the last remaining German base in Belgium territory.

London, Oct. 18.—Admiral Keyes, of the British Navy landed at Ostend yesterday afternoon, says an official announcement from the Admiralty. The Admiral was preceded by members of the Royal Air Force who landed at Ostend yesterday morning.

French cavalry patrols, says the Evening News, reached Ostend today and returned with the report that no Germans were to be seen there.

The Admiralty statement reads:

"Royal air force contingents working with the Navy landed at Ostend this morning and reported it clear of the enemy. Vice-Admiral Sir Rogers Keyes, commanding the Dover patrol force landed at Ostend at 12:55 o'clock yesterday afternoon."

Ostend is one of the two most important German submarine bases on the Belgian coast. The other is Zeebrugge, about 13 miles northeast of Ostend. The usefulness of these bases to the Germans had been seriously damaged last spring by raid carried out by British naval units under Vice-Admiral Sir Roger J. B. Keyes. Both these raids were made in April and Admiral Keyes was the recipient of many congratulations and British and French decorations on the skill in which he carried them out.

London Oct. 18.—Lille has been captured by the British.

The fall of Lille to the Allies takes from the Germans the last of their great bastions which for four years held up the enemy defensive system from the North Sea to Switzerland. Cambrai, Laon and St. Quentin have been given up in the last few weeks and now Lille completes the list.

Paris, Oct. 18.—The whole of the German army of General von Arnim is in retreat from the North Sea to the region of Lille, having been beaten back and overthrown by the Allied attacks yesterday.

The retirement is assuming the proportions of a rout. Seventeen divisions comprise the army of Von Arnim.

FACTS TO BE REMEMBERED

The communication written by Mr. C. H. Callahan, by request yesterday should be read with care. It will give those who have not given the subject close attention food for reflection.

George Mason was one of the greatest constructive statesmen the Western hemisphere ever produced, and, above all, he was a patriot of the first order. In the Revolution he wrote to his son, then in France, "God bless you, my child! and grant that we may again meet in your native country as freemen; otherwise that we never see each other more, is the prayer of your affectionate father."

In another letter, he wrote, "I will spend the last penny of my fortune, and give the last drop of my blood for the cause of American independence," and in his will he enjoins his sons "Never to let the motives of private interest or of ambition induce them to betray, nor the terrors of poverty and disgrace, or the fear fo dangers or of death deter them from asserting the liberty of their country, and endeavoring to transmit to their posterity, those sacred rights to which themselves were born."

Such were the sentiments of this wealthy planter who from his station in life had all to lose and nothing to gain, either in a social or political sense by the success of American arms. He loved the people and helped to enfranchise them.

May those who enjoy the blessing of liberty under the free government which Mason helped to establish be equally patriotic. Buy Liberty bonds and preserve for other generations those sacred rights "to which themselves were born."

SIGNS OF THE TIMES.

While we are not inclined to follow every ignis fatuus which is at present glistling athwart the dark clouds which still hovef over the world, nor to place too much credence in dispatches from neutral countries announcing the collapse of Germany, the withdrawal of U-boats, orders restricting the work of despoilation by the Huns, nor statements telling of the approaching unconditional surrender of Germany, there are signs in the firmament which seem to signify that peace may not after all, be far in the future.

Germany is undoubtedly on the wane—there can be no doubt of that The evacuation of Ostend, the retreat from Lille and the rapidity with which the allies are advancing on the western front por tend the beginning of the end.

There can be no doubt that the Hohenzollern prestige is gone. Socialism verging on Bolshevikism is rampant in Germany. Peace is the universal demand. There is no longer any hope of defeating the Allies, and in six months more there will be 3,500,000 American troops in Europe, if necessary. A good many of the Germans know this.

The Austrian collapse is plainly seen in Germany, and there are indications of a German collapse and internal convulsions if the Government shall disappoint the people. Potsdam and Wilhelmstrasse had better not wait too long; their retreat may be cut off.

It was a common observation of the military critics in July, August and September that the German retreat was being managed admirably. That can hardly now be said. The great number of prisoners taken during the last two weeks indicates that something has broken; that the machine is no longer working properly. If the retreat has not degenerated into a rout, it certainly gives signs of doing so. That the German military power is collapsing is hardly to be doubted. If so, we can understand the threatened collapse of the civil power

The New York Stock Exchange is one of the best, if not the best, barometer registering war conditions. Yesterday the approach of peace was certainly heralded by the movement of the market. Those securities which are clearly classified as peacestock went upward with a bound. The doubtful stock moved uncertainly. The volume of business was the largest of the year. Peace may not be here tomorrow or even the next day, but, in the judgment of the traders, it is coming and they are preparing for it.

Secretary Lansing stated the issue in words of gold yesterday.:

"Germany is bending. More pressure and she will break. Every man counts, every gun counts and every dollars counts more today than ever before. The Government must have the money it needs. Loan it to your country. Do your part to win the war."

THE DULL COLD EA R OF DEATH.

O, very gloomy is the House of Woe,
Where tears are falling while the bell is knelling,
With all the dark solemnities which show
That Death is in the dwelling!
O very, very dreary is the room
Where Love, domestic Love, no longer nestles,
But stricken by the common stroke of doom,
The corpse lies on the trestles.

Deaths are still occurring in Alexandria and will continue to occur while time lasts. The actual number of deaths among Alexandrians, however, is but slightly above the average after all, notwithstanding the prevalence of the fearful epidemic which has been in our midst during the past few weeks.

We are told that every person who attains the age of forty lives to see thirteen hundred millions of people lie, or as many as are upon the globe at any one time, one dying every second on an average.

The mortality in Alexandria during the past month and a half, has been mostly among the young, or comparatively young. In many cases mothers have been called into the realm of shades, leaving helpless little ones, while fathers have been suddenly parted from wives and helpless children.

The distress caused by these sudden dispensations has been acute. In some cases inroads into what were a few months ago happy families have been fearful. Last night a young man passed away, a victim of pneumonia which followed an attack of grip. Last Saturday night his brother paid the debt of nature from the same malady But this is not all, as six brothers and sisters have been taken from the same family in past years.

In the graphic description of scenes in the better world we are told that a rainbow likened unto an emerald is encircling the throne eternal. Some one in commenting upon that beautiful figure calls attention to the fact that the bow is composed of rain drops and sun beams, indicative of the mingling of smiles and tears. This is taken to mean that in the great reunion we will smile and weep alternately when we again behold those who have gone before.

MONSIEUR SEGOTIN.

One of the most interesting short stories published in connection with the present war was written by William Caine, a copy of which was sent to the Gazette office some time ago. We read it with interest, as it was brief and to the point.

Monsieur Segotin conducted a cigar stand at Ostend during the summer season when people from many places in Europe spent the heated term at the popular Belgian resort on the North Sea. The author of the story smoked and he purchased his favorite brands from the Monsieur. On one occasion the author started a conversation with the old man, during which the latter referred to a number of Germans who were then loitering on the beach, and said: "You see those Teutons. They come here every summer. I have as little to say to them as possible. I know a time will come when they will come here for the purpose of staying. Representatives of this race are scattered over the globe. They are dreaming of world domination. They had better be watched."

These words were uttered years before Germany started to conquer the world. Shortly after war was declared, and when parts of Belgium, including Ostend, had fallen into their hands, the author of the story met Monsieur Segotin in London. The old man was than a refugee in a foreign land. After interchanges of opinion on the war. Monsieur said: "I told you a time would arrive when the Germans would come to Ostend to stay. They have long had their mind fixed on this movement. They are there now and I have been forced to leave my all in their hands."

We hope Monsieur Segotin is still living and that he may enjoy the proud satisfaction of realizing that his beloved Ostend is no longer in the hands of the Huns.

FAVORS MODERATION

London, Oct. 18.—Viscount Milner, the British War Minister, in an interview published in the Evening Standard yesterday expresses the opinion that an armistice which will strength on the allies militarily will be successful in obtaining a decisive victory for the allies and in bringing about the collapse of Prussianism.

The War Minister says he believes the allies should not attempt to dictate drastic changes in the personal constitution of the German government, since to do so would stiffen the waning resistance of the German armies and people.

Viscount Milner says further the transformation of the German government now progressing should not be hurriedly denounced as a shaw and that it is in the interest of the allies to see a stable government maintained in Germany since, if that country be "Boishevikified" it would be difficult or perhaps impossible to obtain reparation.

SERUM THAT WORKS WONDERS

Richmond Physician Discovers Treatment Which Puts Effective Check on Pneumonia.

Richmond, Va., Oct. 18.—Up to the time of the announcement of the findings from the use of antistheptococcus serum in the pneumonia cases on which it has been used by Dr. Samuel Budd of the Richmond Influenza Emergency Hospital, the State Board of Health has not felt that it could make any recommendations as to a definite method of treatment for these cases. The indications, however, now are definite that many of the cases of pneumonia complicating influenza are due to the germ streptococcus instead of to the usual germ of pneumonia. In various parts o fthe State reports show that about one half of the cases of pneumonia have been fatal.

Dr. Budd had antistreptococcus serum administered to twenty patients, two of whom were practically in a dying condition when this treatment was given. Of this group only these two have died. The results in the other cases are declared by prominent and conservative physicians to be little short of miraculous.

This serum is not used as a preventive but as a cure for the so-called streptococcus pneumonia so frequently complicating or following influenza. It is not a new serum but one which has been in use for streptococcus infections of the throat and other parts of the body for several years.

The product used here is produced by the H. K. Mulford Company of Philadelphia, Pa., Lilly & Company of Indianapolis, Ind., E. R. Squibb & Sons of New Brunswick, N. J. and Parke, Davis & Co. of Detroit, Mich. also supply products of this nature.

The antistreptococcus serum for best results should be injected directly into a vein of the arm. The rather limited experience of physicians in its use for streptococcus pneumonia indicates that the best results will be had by 20 cubic centimeter doses administered at intervals of eight hours. In a number of instances observed active delirium ceased, the temperature dropped markedly and symptoms of poisoning rapidly diminished within a few hours after the first injection of this serum. Solidified areas in the lungs have been observed to clear up within a few hours and the patients have been rescued in a remarkably short time from a practically dying condition to convalescence.

The State Board of Health immediately ordered a shipment of this serum from the Mulford Company when the first results were learned, and was in a position, when authorized to make a public statement, to send out at once at least a limited supply of the serum to different parts of Virginia. This supply was soon exhausted and more has been ordered for the Board, while the health officers of various parts of the State have been advised to order an additional supply directly from the manufacturers.

Serum for treating one case is costing from $3 to $5 according to the form of the package.

Dr. Budd has also prepared for distribution through the State Board of Health and othewise, a vaccine to be used in the early stages of influenza to prevent the development of pneumonia. It is also believed that this will prove of definite value and will be found efficacious in preventing many cases of pneumonia, thus saving many lives. This vaccine will be sent out as rapidly as possible to various parts of the State where needed.

STARTLING RE ORTS

Germany Said to Have Called in U-Boats and About to Surrender to Foch.

Amsterdam, Oct. 18.—The Handelsblad asserts it has authoritative information to the effect that the German admiralty has sent out a wireless message to all submarines to return immediately to their bases.

London, Oct. 18.—Prince Maximilian of Baden, the German chancellor, will make a statement in the Reichstag today, accepting in the name of the government and of the German army President Wilson's terms, the Daily Express learns from its Amsterdam correspondent. The information is credited to direct Berlin advices. The correspondent adds that Germany will surrender to Gen. Foch's armistice conditions.

Rotterdam, Oct. 18.—The Rotterdamsche Courant, which caused a world-wide sensation Wednesday by reporting the Kaiser's abdication and Germany's capitulation, a report which it later retracted, asserts that the German high command, in compliance with President Wilson's demand, has ordered that all acts of plunder and destruction in France and Belgium be stopped.

Amsterdam, Oct. 18.—Hungary, Bohemia and the Croteans yesterday declared their independence, according to Vienna dispatches. Baron Hussarek, the Austrian premier, has summoned the Austro-Hungarian political leaders, the dispatches add, and has submitted to them a plan for splitting the dual monarchy.

NEWS OF THE DAY

Interned German prisoners at Fort Oglethorpe, Ga., are buying Liberty bonds. They expressed their desire to do so to the authorities of the internment camp. A Mitchell Palmer, custodian of alien property gave his consent. A great number of these men were formerly in the German marine service, serving on board of ocean liners plying between this country and Germany before America's entrance into the war.

With more than 100 persons dead and thousands without shelter, food or clothing as a result of the earthquake which shook the entire island last Friday, the Government of Porto Rico has appealed to Congress and to the American Red Cross for assistance, in a cable message forwarded to Washington. Property damage in three cities and numerous towns, particularly along the west coast, totaled $4,000,000, said the message, which was sent by Antonio Barcelo, President of the Porto Rican Senate, to Cordova Davila, resident commissioner in this country.

Up to the present nearly 1,000,000 British troops have been sacrificed in the war, according to information received by Reuters, ltd.

If ye break faith with us who die

In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.

We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe:
To you from failing hands we throw
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

Lieut.-Col. John McCrae
(Died in Service.)

We must keep faith. We must mobilize our hearts and our households—we must save much to lend much—we must receive every dollar above our plain necessities in trust for our fighting men—our men who have given their lives. We must take up their quarrel with the foe and fight the great fight through. **If we break faith with those who die—We shall not sleep!**
